1. A Flat Interest Rate is a fixed interest amount based on a percentage of the original loan amount and it doesn't change throughout the term of the loan. Unless "Flat" is specifically mentioned, the interest rate method applied will be Reducing Balance. Flat Interest Rate and Fixed Interest Rate are not the same. Fixed Interest Rate is a rate that will not change during the agreed period but it uses a Reducing Balance interest rate method.

2. The 5 year fixed interest rate applies only to customers acquiring their first home and have a combine income of \$50,000 or less.

3. Merchant Finance follows the MSME definition prescribed in the RBF MSME Credit Guarantee Scheme Guidelines.
